Executive Director

Terry Wilson-Gray

Dear Loyal and Future Supporters,

Status or circumstance shouldn't be a factor in a woman's fight against breast cancer. Cancer doesn't care whether a woman is Asian or Caucasian, 16 or 60, insured or not. The care shouldn't discriminate either.

Thirty-Two years ago, Dr. Sally Knox, a Dallas breast surgeon, and a group of breast cancer survivors formed a nonprofit called the Bridge Breast Network. Their goal was to bring quality health care to uninsured women with breast cancer living in North Texas.

With your help the Bridge Breast Network has built relationships with over 300 medical providers and 200 community partners. We have touched the lives of over 200,000 individuals through breast-health education and/or medical services, but there is still more work to be done. We are still experiencing high levels of late-stage diagnosis from breast cancer in the Dallas-Fort Worth area. Please join us in giving cancer the boot on Saturday, October 19, 2024 at VouV Meeting & Event Space.

Thank you in advance for considering our request. Included with this letter are materials providing details about sponsorship opportunities, advertising in the event brochure, and auction donations for the event. Please consider how you can help us "Give Cancer the Boot". Your gift will not only be a **Bridge of Hope** to a wife, mother, sister or daughter, it will be a **Bridge of Hope** to building a stronger community.

Bridge Breast Network
Executive Director
